Integrated Rural and Agricultural Development Association, Satara

Reg. No. MH/16552/satara

About IRADA

It is an organization established for the health of nature and its survival by choice. The aim here is to implement a system that integrates individual behavior to meet the basic temporal and situational needs of society based on tradition and modern science to maintain the nature of the relationship between nature and man, which is important for social health. With the passage of time, the flow of innovation in the organization, change, change of structural and functional rules, acquisition of new symbols and values will continue to happen.
